

# Memorandum

**To:** S'COOL Workshop Participants  
**From:** Carolyn Green  
**Re:** License Renewal or Graduate Credit

---

## **License Renewal**

Please look into your appropriate procedures for your school district before arrival. Some school systems require that you apply ahead of time if you wish to receive renewal points. You may want to consider the following, but you cannot apply for both.

## **Graduate Credit**

Hampton University will offer 3 hours credit for a cost of \$485. There will be an additional requirement beyond the one week workshop participation, if you wish to get graduate credits in science. Please make the decision before coming to the workshop if you wish to do this, as a HU representative will be on hand to register you. Your Social Security number will be required.
